

# Stormwater Treatment Project Information Worksheet

## For sizing and cost information:

**Fax** 207.885.9825     
 **E-mail** contactus@contech-cpi.com     
 **Call** 877.907.8676

## Project Information

Date: \_\_\_\_\_ Response Required By: \_\_\_\_\_  
 Project Name: \_\_\_\_\_  
 Project Location: \_\_\_\_\_  
 Permitting/Reviewing Agency Standards: \_\_\_\_\_ Project Description/ Land Use: \_\_\_\_\_

## Treatment Requirements - Target Pollutants

- TSS     
  Oil & Grease     
  Other:  
 Trash/Floatables     
  Metals:     
  None  
 Phosphorus

## Storage Requirements

- Detention     
  None  
 Retention/Infiltration     
  Other:

## Treatment Technology (if known)

- Filtration     
  Hydrodynamic Separation     
  Screening  
 Oil/Water Separation     
  Volumetric Separation     
  Catch Basin Insert  
 High-Flow Bypass

## Storage Type (if known)

- Metal     
  Concrete  
 Plastic     
 Volume Required: \_\_\_\_\_  
 Allowable Depth: \_\_\_\_\_

## Design Specifications

| Structure ID | Contributing Drainage Area |                          |                      | Water Quality Design Flow or Volume | Peak Condition    |               | Inlet size/ Outlet Size | Elevations (ft or m) |              |               |
|--------------|----------------------------|--------------------------|----------------------|-------------------------------------|-------------------|---------------|-------------------------|----------------------|--------------|---------------|
|              | Area (ac or ha)            | Runoff C or % Impervious | T <sub>c</sub> (min) |                                     | Flow (cfs or l/s) | Return Period |                         | Rim                  | Inlet Invert | Outlet Invert |
|              |                            | C or %                   |                      | /                                   |                   |               | /                       |                      |              |               |
|              |                            | C or %                   |                      | /                                   |                   |               | /                       |                      |              |               |
|              |                            | C or %                   |                      | /                                   |                   |               | /                       |                      |              |               |

Inlet Material: \_\_\_\_\_

Outlet Material: \_\_\_\_\_

If high seasonal groundwater, what is the elevation? \_\_\_\_\_
